# OUR STORY

At **RAWGANIQ™**, we are driven by a desire to deliver honest nutrition, one fingerprint at a time!

Our organic certified ingredients are sourced directly from farmers around the world, grown and harvested in pristine fields, from the breath-taking highlands in Peru where products are grown at the highest altitudes between 7,000 - 11,000 feet, to the lush landscapes of Inner Mongolia, known for its clean way of life. This is where we build trusting relationships and form lasting friendships. These acts of the heart ensure that we source the purest ingredients, as the most vital element in bringing you wellness.

Back in our own boutique certified organic factory, we apply the same nurturing character to our processing and packing, by controlling temperature, light and oxidation and avoiding harsh physical processes, to maintain the integrity of the nutrition within our products.

And to conclude this journey, all of our products are tested & verified by a 3<sup>rd</sup> party laboratory, to ensure your safety and natural nutrition. Our passion for quality requires that only the purest product makes it into our final pack formats.

# The RAWGANIQ™ Difference

1. Both farms and factory are organic certified, to USDA/NOP and EU standards

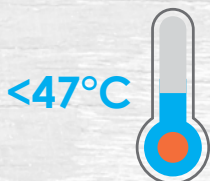

TH-BIO-140  
Non-EU Agriculture

2. We directly import our raw materials from contract farmers around the world, guaranteeing fair trade, best quality and price

3. Stored, processed and packed in an environment controlled facility

4. We apply a low temperature manufacturing process under 47°C to preserve the natural nutrients

5. We use only migration tested and certified food grade packaging

6. Both raw materials and finished goods are vacuum packed for freshness

7. Independent lab analysis on all products to ensure safety

# NUT & SEED BUTTERS

We want you to experience the authentic taste of natural nuts and seeds. That's why we use only 100% organic certified produce, slowly roast them below 47°C to enhance the natural flavour and then grind in small batches using traditional, hand crafted stone grinding mills. This unique process ensures a superior tasting, smooth & creamy textured butter, whilst delivering the highest nutrition possible.
